

DR. JEAN-GILBERT PAULO

People often associate trips to the oral surgeon with feelings like discomfort, fear, or anxiety, but when you go to an oral surgeon who prides himself on treating patients like family, truly optimizing the experience, you can set your fears aside.

Dr. Jean-Gilbert Paulo's practice at 860 Tecumseh Road East is specialized in oral and maxillofacial surgery. Working alongside two other incredible oral and maxillofacial surgeons as well as over two dozen additional staff members, the team at Southwestern Oral and Maxillofacial Surgical Centres strive to ensure patients are comfortable and receiving quality care.

Dr. Paulo focuses primarily on surgeries such as dental implants, wisdom teeth removal, bone grafting with platelet rich fibrin, biopsies, corrective jaw surgeries and tumor resections. Over the last few years, the office has also offered therapeutic Botox injections for select patients, which can aid in the relief of pain caused by teeth grinding.

The evidence-based treatments available at Dr. Paulo's office blend the latest technologies with traditional techniques, tied together with Dr. Paulo's comprehensive knowledge, training, and expertise, making him proud to say that he can deliver quality care to his community.

Of course, family goes beyond the care of his patients. When not in the office, Dr. Paulo enjoys spending his free time with his wife and daughter.

Taking referrals from dentists across the county, Dr. Paulo and his team of healthcare professionals are ready to assist patients with their healthcare. See them at one of their two convenient locations: 860 Tecumseh Road East (suite 200), or 33 Princess Street (suite 302), in Leamington, and visit them online at www.sworal.com for more information.
